---

## Summary

Aspiring Software Developer with a strong foundation in Java, Spring MVC, Hibernate ORM, and Angular. Eager to contribute to a dynamic team, applying skills in database administration, web development, and architectural patterns to build scalable and efficient solutions. Passionate about continuous professional development in the technology sector.

---

## Education

<b>Masters of Computer Application</b> <b>K. I. T's Institute of Management Education &amp; Research</b>	<b>08/2023 – 04/2025</b> <b>Kolhapur, India</b>
<b>Bachelor of Computer Application</b> <b>The New Collage Kolhapur</b>	<b>08/2020 – 06/2023</b> <b>Kolhapur, India</b>
<b>Junior College</b> <b>Chate Jr. Collage of Science</b>	<b>01/2018 – 06/2019</b> <b>Kolhapur, India</b>

---

## Technical Skills

**Languages:** Java, Python, JavaScript, SQL | **Backend:** Spring Boot, JPA/Hibernate, REST APIs, JDBC | **Frontend:** Angular, HTML, CSS | **Tools:** Git, GitHub

---

## Work Experience

<b>Code Crafters Services - Java Developer</b>	<b>01/2024 – 12/2024</b>
<b>Key Skills:</b> Java, Spring Boot, Angular, REST APIs, JPA/Hibernate	
<ul style="list-style-type: none"><li>Developed responsive Angular interfaces, incorporating dynamic charts for data visualization.</li><li>Implemented secured backend systems using Spring Boot, JPA/Hibernate, and JWT-based authentication.</li><li>Optimized backend services and database queries, significantly reducing response times and enhancing application performance.</li><li>Designed and documented secure APIs, ensuring seamless and reliable communication between frontend and backend systems.</li></ul>	

---

## Projects

<b>Online Grocery Store</b>	<b>GitHub</b>
<b>Technologies:</b> Java, JDBC, SQL	
<ul style="list-style-type: none"><li>Managed database connections using JDBC to facilitate efficient data retrieval and updates for product information.</li><li>Implemented robust authentication and authorization protocols to secure sensitive user data within the grocery store application.</li></ul>	
<b>Project Management System</b>	<b>GitHub</b>
<b>Technologies:</b> Spring Boot, Angular, JPA/Hibernate, JWT	
<ul style="list-style-type: none"><li>Developed a Three-Tier Architecture project management system focusing on user-friendly interfaces and data security.</li><li>Enhanced performance with optimized backend services and queries, ensuring scalability and quick response times.</li></ul>	

---

## Achievements & Certifications

- Completed a comprehensive certification course covering end-to-end web development using Core Java, Spring Boot, Hibernate, RESTful APIs, and Angular/React.
  - Gained experience in building and deploying full-stack web applications and database handling with MySQL.
- 

## Extracurricular Activities

- Proficient in English and Advanced in Hindi.
