SANKET ILAKE

Full Stack Java Developer

📞 7057891106   @ sanket.ilake2019@gmail.com   📍 Kolhapur, India 416234

SUMMARY

As a future software developer, I have a solid background in Java, Spring MVC, Hibernate ORM, and Angular from my demanding coursework. I have extensive knowledge of database administration, web development, and monolithic and three-tier architectures. I'm excited to add my abilities to a vibrant team and commit to developing professionally in the tech sector.

EXPERIENCE

Java Developer

Code Crafters Services

📅 01/2024 - 12/2024   📍 Kolhapur, India

A Java developer role focused on full stack development and software solutions

- Developed responsive Angular interfaces with dynamic charts and secured backend systems using Spring Boot, JPA/Hibernate, and JWT-based authentication
- Optimized backend services and database queries, reducing response times and enhancing performance
- Designed and documented secure APIs, ensuring seamless communication between frontend and backend systems

PROJECTS

JDBC Project – Online Grocery Store

An online grocery store project showcasing database management and efficient user interfaces

- Managed database connections using JDBC for efficient data retrieval and updates
- Secured user data with robust authentication and authorization
- Built a system for managing products with categorization, pricing, discounts, and stock
- Developed order processing, including cart, checkout, payments, and tracking
- Improved performance with connection pooling for optimized database access

Spring Boot Project – Project Management System

A Project Management System implemented with Three Tier Architecture, focusing on user-friendly interfaces and data security

- Frontend (Angular): Responsive UI with dynamic charts
- Backend (Spring Boot): Handles business logic
- Data Access (Spring Boot + JPA/Hibernate): Efficient database interactions
- Security: JWT-based authentication with Spring Security and Angular guards
- Optimization: Enhanced performance with optimized backend services and queries

EDUCATION

Masters of Computer Application

K.I.T's Institute of Management Education & Research

📅 08/2023 - 04/2025
📍 Kolhapur, India - 416234

Bachelor of Computer Application

The New Collage Kolhapur

📅 08/2020 - 06/2023   📍 Kolhapur, India

Junior College

Chate Jr. Collage of Science

📅 01/2018 - 06/2019   📍 Kolhapur, India

KEY ACHIEVEMENTS

💡 **Certifications**

Completed an intensive certification course covering end-to-end development using Core Java, Spring Boot, Hibernate, RESTful APIs for backend, and HTML, CSS, JavaScript, Angular/React for frontend. Gained hands-on experience in building and deploying full-stack web applications, integrating frontend and backend components, database handling with MySQL, and version control using Git/GitHub.
